PROFESSIONAL PROFILE AND OBJECTIVE

IT responsible with extensive experience in advanced technological solutions and software development that drive operational efficiency and growth. I possess a strong technical background and deep knowledge and expertise in product management, agile innovation, delivery management, and digital transformation processes. I am accustomed to advising high-level clients in the technology sector (Directors, VPs, CTOs, and CIOs) and have significant international and multicultural exposure.

As a global manager, I combine strategic vision with operational execution. My analytical approach and problem-solving abilities enable me to optimize outcomes. I am people-focused and have extensive experience leading and developing highly skilled teams. I am business-oriented and committed to achieving high standards of quality.

My professional objective is to contribute to the change and growth of a company from a strategic position within a dynamic environment. I am open to different sectors, with experience in retail, e-commerce, fintech, software development platforms and real estate.
